

Produktinformation

esgeGrind NUS 1500 Special grinding oil for HSS grinding

esgeGrind NUS 1500 is a colorless, low-viscosity, chlorine-free and oil mist-resistant metalworking oil, specially developed for high-speed grinding.

esgeGrind NUS 1500 consists of special base oils, polar active ingredients and special anti-wear additives. Due to the excellent cooling and lubricating properties overheating is effectively prevented.

esgeGrind NUS 1500 is not copper-corrosive and can therefore be used universally. It has a fast settling behavior and is easy to filter. **esgeGrind NUS 1500** has a very good air release- and cooling power and is low foaming.

Application

esgeGrind NUS 1500 was developed for use as an abrasive oil, the machining of automated and carbon steels as well as non-ferrous metals are also possible.

Technical Data's	Unit	Method of Testing
Density at 15°C g/ml	0,83	DIN 51 757
Viscosity at 40°C mm ² /s	14	DIN 51 562
Flash Point °C	> 190	DIN 51 376
Color	Light yellow
